Capture the essence of Tahiti... Exotic Frangipani Monoi Moisture Melt

Transport mind, body and soul to the shores of the South Pacific this summer... Elemis has designed **Exotic Frangipani Monoi Moisture Melt**, a deeply hydrating body product with a rich tropical fragrance just perfect for balmy summer nights reminiscent of the tropics.

The trademark scent of Frangipani Oil 'flower of the gods,' is a well kept secret, Polynesian women have used Monoi Oil for centuries as its nourishing formula adds hydration and suppleness to dry skin, a glossy sheen to dehydrated and damaged hair and intensive moisturisation to overworked hands, damaged cuticles and dry feet. The oil also contains the highest grade of Coconut Oil **Cocos Nucifera**, which is enhanced with the Fragrance of **Plumeria Rubra** Flowers.

Hand produced on the beautiful coral shores of the Polynesian islands using traditional methods, this truly exotic treatment oil is rich in small molecule-sized **Lipids**, aiding penetration into the epidermal layer and providing superior moisturisation.

Three-in-one Conditioning Treatments

For those who can't slip away to indulge in an **Elemis** spa treatment, **Exotic Frangipani Monoi Moisture Melt** can be used to simulate spa treatment in the comfort of home. Presented in the form of a balm, it can be melted easily into a silky oil by being placed in a bowl of warm water. The product is so versatile it can be used on virtually any part of the body plagued by dry skin.

Body Nourishment

For treating dry skin all over the body, massage **Exotic Frangipani Monoi Moisture Melt** into skin after bathing to seal in moisture. Concentrate on dry areas such as elbows, knees and ankles for best results.

Healthy Hair

Exotic Frangipani Monoi Moisture Melt can also serve as an intensive hair conditioning treatment by massaging a small amount into hair and scalp, covering with a warm towel and leaving for 15 minutes. Afterwards, shampoo and rinse for silky smooth nourished hair.

Treat the Feet

To perform a DIY heavenly ritual for the feet and hands, massage **Exotic Frangipani Monoi Moisture Melt** into skin for an intensive moisturizing manicure or pedicure, concentrating on nails and cuticles. Cover hands or feet with cotton gloves or socks to increase moisture absorption and leave overnight for an exotic, deeply nourishing treatment.

Frangipani Oil is used in **Elemis' Exotic Frangipani Body Nourish Float** treatment where warm oil is drizzled slowly over the body and softly massaged into the skin. The body is then lowered into a warm weightless heaven in the dry float, a deeply meditative experience that fully supports every inch of the body as if it were back in the womb. The lightness of the body and the gentle heat of the float help the exotic oil to be absorbed in to the skin.
